- 2015** ○ **October 27-28**  
IWHR convened sessions in both thematic and sci-tech processes at 7th World Water Forum in Daegu

## Why you might want to support IWHR

- **IWHR** is China's top and largest research institute in water and hydropower sectors, and is under the administration of China's Ministry of Water Resources.
- **IWHR** is willing to contribute to global water development and adaption to water-related challenges while promoting the exchange and cooperation between China and the international community.
- **IWHR** is willing to get better and more deeply involved in WWC activities.
- **IWHR** is willing to share its know-hows with the whole world.
- **IWHR** Vice President Dr. Jia Jinsheng, former and honorary president of ICOLD, ISC member of the 7th WWF, and the representative of ICOLD on the BoGs in 2009-2012 mandate, has been constantly and actively engaged in WWC activities.

## What are IWHR's commitments if elected

- Deeper involvement in WWC activities
- Sharing China's experiences of water with WWC community
- Strengthening relationship between WWC and water-related organizations in China
- Contributing leading science and technologies toward a sustainable future of water

## Who you are voting for
